

1. Accelerate people Uk

Who we are

We are an independent end-point assessment organisation (EPAO) that puts the apprentice at the heart of what we offer and deliver. Specialising in digital apprenticeship EPAs, our team has extensive industry knowledge and have worked across the digital sector throughout our careers. We strive to help people demonstrate their potential; whilst being professional, transparent, and credible in everything we do.

We are focused on building relationships and through these established networks we have been able to build and design digital apprenticeship EPAs based on the feedback/requirements collected from employers, apprentices, and training providers.

We pride ourselves on creating realistic assessments to ensure the apprentice has the best possible experience whilst engaging in our products and services, at the same time as ensuring individuals and businesses achieve real value.

We are continuously looking at new innovative ways to utilise technology to improve the services and experience we offer the apprentice, making sure we use the most flexible platforms available to enhance the EPA experience.

Our Team

" We are immensely proud to have been able to bring together a group of professional individuals to join us at Accelerate People Ltd in our new venture to offer End-point Assessment in the Digital Sector.

On-going conversations with the employers we have worked with for many years have continually requested our support with their apprentices and provision. This new venture enables us to create this opportunity and fulfil their requests.

The team we have assembled are passionate and dedicated to make sure the apprentices, customers and digital technology are at the heart of everything we do. "

Best regards

Accelerate People Ltd.

Accelerate People is a registered apprenticeship assessment organisation (EPO 0475) that specialises in carrying out end-point assessment (EPA) for digital IT apprenticeship standards.

Our sole focus is on providing digital IT EPAs that are a true match for the growing expectations of employers, providers, and apprentices.

End-point Assessment – An explanation

In the last few months of an apprenticeship, it's time for an apprentice to focus on their EPA.

Once they have completed all the outcomes set out within their apprenticeship standard, an apprentice's evidence will be uploaded at EPA gateway to the selected EPA organisation (EPAO), typically this is done by a training provider.

The training provider and employer both have a shared responsibility to decide if an apprentice has demonstrated the knowledge, skills and behaviours required to be competent in their job role and if they are ready for their EPA.

It is an apprentice's employer, who has the final say on whether they feel they display occupational competence and are ready to complete their EPA.

We believe the EPA is an opportunity for an apprentice to showcase the skills, knowledge and behavioural attributes that they have developed during their apprenticeship.

Our EPA Products

We create End-point Assessments for Digital IT Standards on request, our assessments are based on Employer and Training Provider feedback for more realistic work-related tasks.

2. Agilisys

Agilisys: Delivering Successful Digital Transformations through Cloud, IT, and Digital Solutions

Agilisys is a leading provider of cloud, IT, and digital transformation services, collaborating with a diverse range of organizations, including healthcare, local government, and public sector entities. Over the past two decades, they have built a reputation for excellence, ensuring positive experiences for their clients and delivering successful outcomes on various projects.

Positive Testimonials and Partnership Approach

Testimonials from various organizations, such as NHSBSA, Southend-on-Sea Borough Council, City of London Police, and NHS Business Services Authority, commend Agilisys for their dedication, responsiveness, and expertise. Clients express their satisfaction with the value realized from existing investments and the creation of best-in-class solutions, resulting in multiple operational benefits. Agilisys' adaptability and efficiency in navigating changing circumstances are praised, solidifying their position as an effective and reliable supplier.

Focus on Enhancing Public Services through Technology

Agilisys has been a key collaborator in the digital transformation of public services for more than two decades. Their focus lies in unlocking technology's potential to enhance services, save costs, and improve efficiency. With a forward-looking approach, they emphasize future-fit infrastructure, intelligent operations, smarter service solutions, and future planning to support the delivery of efficient and effective public services.

Expertise in Cloud Solutions and Strategic Partnerships

As part of their cloud services, Agilisys simplifies cloud solutions by offering on-premises to cloud migration and deploying cloud-native applications. They utilize micro-services and containerization strategies, adopting a multi-cloud approach. Agilisys is a trusted partner of major UK cloud providers, including Microsoft, AWS, and Google Cloud, earning them the status of a Microsoft Gold Partner, AWS Public Sector Consulting Partner, and Google Cloud Partner. This ensures consistent service and comprehensive solutions across each platform.

Providing High-Quality Customer Services to Local Government

Agilisys boasts a remarkable track record of delivering high-quality customer service solutions to local government clients. With over two decades of experience in customer contact transformation and managed service delivery, they handle over two and a half million contacts annually for various partners, including Kent County Council, North Somerset Council, Westminster City Council, and Rochdale Borough Council. Agilisys' Customer Services teams are equipped with advanced contact center technologies, empowering them to deliver exceptional service and support. The company's Resource Planning team ensures efficient resourcing in their contact centers and offers Resource Planning as a Service (RPaaS) independently, allowing customers to optimize operations and achieve significant efficiencies and business benefits. Their commitment to excellence and innovation has earned them recognition and awards at the UK Contact Centre Awards and the South West Contact Centre Awards.

In conclusion, Agilisys stands as a leading provider of cloud, IT, and digital transformation services, with a strong focus on delivering successful outcomes for their clients. Their positive testimonials, partnership approach, and strategic expertise in cloud solutions have solidified their position as a reliable and effective supplier. Moreover, Agilisys' dedication to enhancing public services through technology and their track record in providing high-quality customer services to local government demonstrate their commitment to excellence and innovation in the digital transformation space.

3. Avocado learning

Avado Learning: Empowering Learners through Work-Readiness Programs and Professional Qualifications

Avado Learning is a renowned platform that has helped over 27,000 learners successfully complete CIPD learning. They specialize in offering work-readiness programs, apprenticeships, and professional qualifications, harnessing the UK Government's future skills funding. With a strong focus on upskilling and reskilling professionals through on-the-job training, Avado aims to bridge the skills gap and prepare individuals for the ever-changing job market.

Data Academy: Cultivating a Data-Driven Culture

Avado's Data Academy offers diverse learning experiences, enabling individuals and organizations to embrace data and cultivate a data-driven culture. The academy offers apprenticeships in Data Science and Business Ready Data Scientist, including a Master's Degree from the University of Buckingham. They conduct immersive workshops like "Leading with Data" for leadership teams, fostering data understanding and informed decision-making. Moreover, online modules on data literacy create organization-wide awareness, and the Data Champions campaign promotes practical application. Through a capability audit, Avado identifies digital skills gaps, providing valuable insights and action plans for successful digital transformation.

FastFutures Programme: Practical Skills for Gen Z Talent

Avado's FastFutures Programme is a 6-week practical skills program designed for Gen Z talent. It covers data, marketing, finance, innovation, and teamwork. With mentoring, challenges, and CV guidance provided by UK employers, graduates earn a certificate endorsed by CBI and Avado. Core modules include data utilization, data visualization, data analysis, diversity, and customer-centric marketing. The program's unbiased application process focuses on scenario-based assessment, ensuring a fair selection of participants. Testimonials highlight its impact, inspiring career interests and skill development.

CIPD HR Courses: Elevating HR and L&D Careers

Avado offers a range of online HR courses that cater to both entry-level and experienced professionals in the Human Resources and Learning & Development fields. These courses, accredited by CIPD, include the Certificate and Diploma qualifications. Learners can choose from options like CIPD Level 3 Certificate for entry-level HR roles and Level 5 Associate Diploma for advanced subjects. HR courses cover workforce management, recruitment, benefits administration, and records management. Avado's online learning platform provides flexibility with weekly plans and accessibility across various devices.

Partnership with Google for Digital Learning Labs

In partnership with Google, Avado offers digital learning labs and updates to the Squared Online qualification, aimed at accelerating marketing and digital knowledge to meet changed consumer behaviors. The labs offer flexible time frames and focus on developing digital skills to address business challenges and drive transformation. Avado's Marketing Academy provides various qualifications, courses, and apprenticeships to enhance digital marketing maturity and upskill the entire workforce to industry standards. The collaboration with Google allows Avado to offer cutting-edge content and foster immersive and collaborative learning experiences, empowering individuals and businesses for the future.

Conclusion

In conclusion, Avado Learning stands as a prominent platform, offering diverse learning opportunities through work-readiness programs, professional qualifications, and specialized academies like the Data Academy and FastFutures Programme. Their collaboration with CIPD and Google ensures the delivery of high-quality courses and training, enabling learners to elevate their careers and adapt to the evolving digital landscape. Avado's focus on upskilling and reskilling professionals ensures that they remain equipped with the knowledge and skills necessary to thrive in the job market.

4. BCI-Capital

BCI Capital Limited: Transparent and Secure Investment Management and Advisory Services

BCI Capital Limited, a reputable financial institution, provides Investment Management and Advisory services. As part of their commitment to data privacy and security, they have a comprehensive Privacy Policy that outlines the collection and processing of information related to their services.

Privacy Policy: Ensuring Data Protection and User Rights

BCI Capital Limited's Privacy Policy covers various aspects related to data protection. It ensures transparency in data collection, the legal basis for processing, and data retention practices. The policy emphasizes obtaining user consent and uses clear language to ensure users' understanding of their data processing practices.

Comprehensive Data Handling and User Rights

The Privacy Policy includes sections detailing data sources, usage, disclosures, international data transfers, data security measures, and users' legal rights. The types of personal data collected encompass identity, contact, financial, and usage data. Importantly, the policy ensures that no special categories or criminal data are collected or processed.

Transparent Data Collection Methods

BCI Capital Limited explains the various data collection methods used, including interactions with users, automated technologies, and data obtained from third-party sources. Additionally, the policy addresses marketing practices, opt-out options, and the use of cookies.

User Rights and Third-Party Involvement

BCI Capital Limited's Privacy Policy is designed to uphold users' legal rights, including the right to access, correct, erase, object, and transfer their data. The policy also clarifies relevant terms through a glossary and explains the involvement of third parties in data processing.

Conclusion

In conclusion, BCI Capital Limited's Privacy Policy demonstrates their commitment to protecting user data and ensuring compliance with relevant privacy regulations. By providing clear and transparent information about their data handling practices, BCI Capital Limited strives to build trust and maintain a secure environment for their Investment Management and Advisory services.

5. English score

EnglishScore: A Globally Recognized Mobile English Test & Certificate

EnglishScore is a highly acclaimed mobile English test powered by advanced AI technology, providing a convenient and accessible way to assess English language proficiency globally. Within 24 hours, EnglishScore delivers CEFR results, evaluating all four language skills - reading, writing, listening, and speaking. Renowned educational institutions like Universitas Surabaya, Walailak University, and Konkuk University have experienced the efficiency of EnglishScore. Real-time progress tracking benefits students, while accessible certificates aid employees. EnglishScore streamlines admissions processes, eliminating the need for external test arrangements. Capella Ubud appreciates its credible communication skills assessment, and their partnership supports Indonesian graduates' employability with recognized English certificates.

Language Proficiency Assessment and Alignment to CEFR Scale

EnglishScore's language proficiency assessment aligns with the Common European Framework of Reference for Languages (CEFR), an international standard to measure language competency. It employs a 6-point scale, ranging from A1 for beginners to C2 for English masters. The EnglishScore test, ranging from 0 to 599, assesses grammar, vocabulary, reading, and listening skills, aligning with CEFR levels A1 to C1. Users can compare their scores with others, and successful test-takers receive a globally accepted Professional Certificate, showcasing their English skills to potential employers or on social platforms.

Personalized Online English Tutoring with Professional Tutors

EnglishScore provides a comprehensive online English tutoring platform, offering a wide range of professional and friendly tutors with customizable search options. Each tutor has a detailed profile, including an introduction video and reviews. Booking sessions is simple, and users can chat with tutors using the chat box. The video-conferencing system supports live video/audio chat, screen sharing, and progress tracking. Tutors create personalized learning plans based on students' levels, objectives, and interests. With a focus on speaking, listening, reading, and writing skills, EnglishScore's tutors, representing diverse accents from various countries, enable students to choose their preferred English style. Additionally, tutors share insights into their respective cultures, enhancing the overall learning experience.

Reports and Validity Studies for Accurate Assessments

EnglishScore ensures accuracy and reliability by providing reports that offer a quick guide to their assessment process. Validity reports delve into Writing, Speaking, and Core Skills tests, providing valuable insights. The platform also emphasizes its alignment with the Common European Framework of Reference (CEFR), a globally recognized standard for language proficiency. Furthermore, EnglishScore is committed to maintaining test security.

English Communication Courses: Preparing Learners for Real-World Scenarios

EnglishScore's English communication courses focus on preparing learners for real-world scenarios, concentrating on speaking, listening, reading, and writing skills. The platform offers professional tutors from various countries, ensuring 24/7 availability and diverse accents to suit students' preferences. These courses cater to various needs, such as travel, confidence building, vocabulary expansion, grammar improvement, and natural pronunciation. Additionally, tutors share insights into their respective cultures, enhancing the overall learning experience.

Conclusion

In conclusion, EnglishScore stands out as a reliable and accessible platform for assessing and improving English language proficiency globally. Through its advanced AI technology and alignment with CEFR standards, EnglishScore provides quick and accurate results. The platform's personalized online tutoring with professional tutors ensures a comprehensive and interactive learning experience, catering to learners' individual needs and preferences. With its commitment to providing credible English certificates and facilitating educational and employment opportunities, EnglishScore serves as a valuable resource for language learners worldwide.

6. Clear Score

ClearScore | Your credit score & report. For free. Forever.

ClearScore is a platform that provides free access to your credit score and report, empowering you to monitor and manage your financial health. Here's some detailed information about ClearScore:

Access to Credit Score and Report

ClearScore functions as a credit broker and offers a mobile app for iOS and Android devices. Through the app, you can access your credit score and work towards improving it to unlock better offers.

Tailored Offers in ClearScore Marketplace

One of the key features of ClearScore is the ClearScore marketplace, which provides tailored offers based on your credit score. ClearScore partners with over 90 lenders to offer a variety of credit cards, loans, and car finance options.

Free Identity Protection

ClearScore also prioritizes the security of your personal information by offering free identity protection services. They scan the dark web to detect any stolen passwords associated with your accounts, fix security issues, and provide tips on protecting yourself against fraud.

Track Your Finances with Credit Report

Tracking your finances is made easy with ClearScore's credit report feature. By regularly checking your credit report, you can identify any signs of fraud or discrepancies in your financial information.

ClearScore Support

If you require assistance or have specific queries, you can visit the ClearScore Support website. The support page offers different categories to address various issues such as sign-up problems, login issues, incorrect credit report sections, credit score inquiries, address-related concerns, and more.

Educational Resources

ClearScore also provides educational resources on their website. You can learn about credit scores and reports, understand how to improve your credit score through a 10-step process, gain insights into factors that affect your credit score, and discover how to take charge of your credit report with a monthly checklist.

Comprehensive Credit Score Services

With ClearScore, you can access your credit score and report for free, receive personalized insights and tips to improve your score, and benefit from exclusive pre-approved credit offers tailored to your profile. Regularly checking your score helps you identify and correct errors on your report and stay alert to potential identity theft.

ClearScore is committed to providing free and comprehensive credit score services, ensuring that you can make informed financial decisions and increase your chances of better credit offers and savings.

7. Contentive

Contentive | Reinventing B2B Media & Events

Contentive is a company that specializes in reinventing B2B (Business-to-Business) media and events. Here's some detailed information about Contentive:

Engaging Senior Executives and Qualified Leads

With a range of industry-leading publications, Contentive engages over 12 million senior executives annually and tracks one billion 1st party interactions. Their approach focuses on providing qualified leads and expert support based on customer interactions. They offer a results-driven marketing campaign that can adapt to the evolving needs of your company.

Demand-Generation Formats and Visibility

Contentive offers a variety of demand-generation formats to ensure GDPR compliance. They can help position your company for maximum visibility within your target market through their growing audiences. Additionally, Contentive facilitates networking opportunities through virtual events, allowing you to connect with potential clients and industry peers.

Experienced Team and Customer Success

The team at Contentive comprises experienced professionals from various fields, including media, technology, events, journalism, SEO, and digital marketing. They are dedicated to customer success, and each campaign is led by a team focused on delivering successful outcomes. Daisy Gregson, as the Head of Customer Success, leads this dedicated team.

Bringing B2B Businesses and Clients Together

Contentive's mission is to provide a platform that brings together B2B tech businesses and the right clients through their online communities across different industries. They foster connections, provide networking opportunities, exclusive content, and private events through their Revenue Leaders Club. The club serves as a platform for senior professionals to exchange experiences, share best practices, and navigate the rapidly evolving B2B landscape.

8. Fospha

Fospha | The Marketing Attribution Platform for eCommerce

Fospha is a marketing attribution platform specifically designed for eCommerce businesses. Here's some detailed information about Fospha:

Accurate Sales Attribution in 7 Days

Fospha specializes in fixing wrongly attributed sales within a span of 7 days. By tracking all clicks and impressions, Fospha provides accurate data for making informed investment decisions. Their setup process is quick, and clients can have live dashboards within 7 days. Additionally, Fospha offers a 30-day money-back guarantee to ensure customer satisfaction.

Flawless Marketing Data and Transformational Insights

The key features of Fospha include flawless marketing data, game-changing attribution modeling, and transformational insights. By leveraging their platform, clients have achieved a remarkable 7% return on advertising spend and a 10% decrease in customer acquisition costs. Fospha is trusted by leading eCommerce brands and offers networking opportunities, industry reports, and case studies.

Voted No. 1 by Customers

Fospha has been recognized and voted as No. 1 by customers. They are committed to delivering exceptional results and providing their clients with valuable insights to optimize their marketing strategies. Furthermore, Fospha offers a 30-day money-back guarantee, ensuring the satisfaction and confidence of their clients.

Fospha is the go-to marketing attribution platform for eCommerce businesses, empowering them to accurately track their marketing efforts, make data-driven decisions, and achieve better ROI.

9. Hive Learning

The World's Number One Peer Learning Platform | Hive Learning

Hive Learning streamlines learning delivery, enabling effortless management of complex programs through one L&D interface. Their platform promotes agile, effective learning by integrating specialist platforms. Learners apply new skills effectively with Hive Learning's AI-driven Program Management Platform. The Engagement Engine ensures actionable results with nudges and reminders. Access Learning Sprints in various languages with content partners' support. Benefit from integration specialists' unparalleled assistance. Join the L&D innovators' community for exclusive events and recognition for impactful learning programs. Learn from field leaders for sustained behavior change.

Logging into your Hive Learning account

Accessing your Hive Learning account is easy via various devices. Use your email and password on your organization's login page to sign in. Alternatively, utilize the Hive Learning app on iOS or Android for on-the-go access. Follow simple steps: download the app, enter your email, sign in via a magic link or manually by adding your Organization name and ".hivelearning.com," then enter your password. For any issues, contact help@hivelearning.com with a brief explanation and screenshots.

Hive Learning Help Center

The Hive Learning Help Center provides instructions on various aspects of using a Hive Learning account. It covers creating an account, handling account-creation issues, accessing and logging into the account, changing the email address, resetting the password, joining and leaving groups, managing notifications, updating the profile, and information about Hive Learning's legal documents – Terms of Service and Privacy Policy.

Setting up your account

To join a group and access Hive Learning, follow the email invitation sent by your organization. Alternatively, use the join page relevant to your organization, fill out details, and click the button to start. Copy and paste the registration link to avoid issues if you already have the app. For assistance

or questions, contact help@hivelearning.com with your name, issue description, and organization details.

[Terms & Conditions - Hive Learning](#)

The Terms of Service for www.hivelearning.com cover website usage, lawful use, restrictions, and intellectual property. Consequences for breaching terms, limited liability, and no warranty.

Webinars' availability and linking guidelines. English law governs with UK and US jurisdiction. Notices via email or site posting. Last updated in March 2021.

10. [We are instrumental](#)

[About instrumental](#)

The digital record business is data driven. Algorithms and AI have replaced traditional gatekeepers in the search for new talent and audiences. Every modern music business needs technology at the heart of what they do. Which is where we come in.

Instrumental builds labels through the power of data science, AI and machine learning. We are so confident in the power of our platform we make growth a guarantee.

[Aim](#)

We are on a mission to change the music business to the benefit of independent artist and label founders while using ai to make the best decisions.

We power label growth from top to bottom. The right data will overhaul what you do and how you do it. The right business building methodology will de-risk the music business and set you up for long term success.

Whether scouting the hottest new talent to sign or collaborate with, forecasting new streams, real time insights from your deep catalogue, optimising releases for algorithmic marketing or funding & royalty analysis - every element of your business can be enhanced, augmented and improved with the right data.

[How it works](#)

Accelerate your streaming growth and take advantages of our guarantee in 3 simple steps

- We'll transfer your catalogue over from your current distributor. That typically takes a few days
- We onboard the recording into our tool kit over the first 90 days and build out a growth plan based on our DRIVEN by data methodology.

- You watch the streams go up and if for any reason they don't, you can leave no questions asked and we'll pay out the 20% uplift guarantee anyway.

Kloo is a versatile platform that offers efficient Accounts Payable-as-a-Service solutions with various automated features, smart cards, and real-time payment options. It caters to multiple industries, ensuring ease of use and seamless onboarding for businesses of all sizes.

13. [Koodoo](#)

The digital platform powering the mortgage industry

Koodoo is a leading digital mortgage platform that collaborates with lenders and aggregators to connect homeowners with suitable mortgages. With their advanced technology and industry expertise, Koodoo enables rapid scaling of digital mortgage services. Their platform offers solutions for lenders to enhance customer acquisition and retention through efficient processes and a superior digital user experience. Aggregators benefit from Koodoo's digital journeys and data integrations, which optimize customer insights. Koodoo provides savings insights, credit file transformation, and customer triage, making them a valuable partner in the mortgage industry.

Helping lenders retain and acquire mortgage customers

Koodoo's digital mortgage distribution platform is specifically designed to help lenders acquire and retain customers at scale. Through integrations with aggregators and online communities, Koodoo enables seamless customer journeys, reducing acquisition and processing costs for lenders. Their data-driven approach pre-qualifies customers, while real-time insights inform product design. Koodoo's suite of out-of-the-box journeys supports customers digitally at any stage of the application process, integrating with credit bureaus and data providers. By working with leading lenders, Koodoo redefines the mortgage process and offers reliable technology built for scale, security, and speed.

About Koodoo

Koodoo, operating as Mortgage Power Limited and Koodoo Advice Ltd, is a registered company in England and Wales. They are authorized and regulated by the Financial Conduct Authority (FCA) and offer mortgage and protection services. Koodoo acts as an appointed representative of Julian Harris Mortgages Ltd. They provide mortgage advice to consumers in the UK and comply with the UK regulatory regime. Their registration details can be verified on the Financial Services Register, and they adhere to the Financial Ombudsman Service (FOS) for arbitration in case of unresolved complaints.

Offering expert mortgage advice to help you find the right mortgage

Koodoo offers expert mortgage advice to individuals aiming to achieve their home ownership goals. Their comprehensive process involves understanding the client's needs, recommending suitable mortgage products from a wide range of lenders, and assisting with document submission and approval. Koodoo provides assistance to first-time buyers, remortgagers, home movers, and buy-to-let investors. With experienced advisers such as Mansi Behl and Hannah Wrixen, Koodoo offers valuable insights and clarity in their mortgage advice, making them a trusted choice for mortgage services.

Working with aggregators to maximize their mortgage vertical

Koodoo collaborates with aggregators to maximize their mortgage vertical by activating, engaging, and converting customers. Their unique sourcing system, combined with lender eligibility rules, streamlines the mortgage application process, ultimately increasing conversion rates. Koodoo integrates with leading lenders, providing direct access to tailored products for customers. Their

mortgage monitoring tools improve customer targeting and enable personalized marketing. With data integrations and compliance oversight, Koodoo saves time and enhances efficiency for aggregators. They offer built-in mortgage permissions, pre-built lender integrations, and developer-centric APIs, ensuring a quick and secure integration process for aggregators. Contact Koodoo to learn more about their solutions and begin the transformation of your mortgage vertical.

14. [Liberis](#)

Investor Relations

Liberis aims to redefine small business financing by connecting SMEs with the funds they need. With a global presence and a strong investor base, Liberis partners with distribution and funding partners to offer embedded business finance solutions. They have a track record of helping small businesses grow faster, increasing customer loyalty for partners, and maintaining lower credit losses compared to SME loans. Liberis is focused on closing the \$5tn global SME funding gap, and their executive leadership team brings decades of experience to drive the company's success.

Open Banking 101 [\[source\]](#)

Open Banking is a regulatory framework that empowers customers to share their transaction data with third parties, granting them greater control over their account information. Liberis utilizes Open Banking to expand access to funding for small businesses. Through secure APIs, Liberis can access real-time transaction data, enabling faster funding decisions and eliminating the need for PDF bank statements. This streamlined application process benefits both businesses and applicants by expediting decisions and simplifying the acquisition of necessary finance.

Embedded Business Management

Embedded business management is a solution for supporting small businesses that lack dedicated resources for operations management. Liberis offers embedded finance solutions that seamlessly integrate financial services into the digital experience, enhancing customer interactions and revolutionizing administrative processes. By automating and streamlining accounting tasks, embedded business management saves time, reduces costs, and provides actionable insights for growth. With cloud-based solutions and integrated financial services, Liberis empowers SMEs with comprehensive functionality for efficient expense management, financial reporting, and more.

Business Cash Advance

Liberis provides a product called Business Cash Advance, which is a form of receivables finance rather than a loan. They are not authorized or regulated by the Financial Conduct Authority, and complaints about Liberis cannot be addressed by the Financial Ombudsman Service. The amount advanced is dependent on the business's status and goes through an underwriting process. Liberis expects a minimum monthly repayment of up to 3% of the total owed, and the funding amount may

vary based on the credit profile. The majority of approved applications receive funding within two working days.

The Role of AI in Detecting and Preventing Financial Fraud in Embedded Finance

This blog post explores the role of AI in detecting and preventing fraud in embedded finance. It highlights the need for robust measures against cybercrime and the limitations of traditional methods in analyzing data. Liberis emphasizes the use of AI in real-time analysis to detect nuanced trends and flag fraudulent transactions. The future of AI in fraud detection shows significant growth, with global spending projected to exceed \$10 billion by 2027. Liberis and other fintech providers are leveraging AI-powered solutions to offer scalable and accurate protection against cybercrime, enhancing embedded finance with proactive fraud management.

15. [Oakbrook](#)

Oakbrook

Oakbrook is a consumer finance and technology business that aims to transform lending for the better. As a leading non-bank lender, they leverage cutting-edge technology to provide personalized lending solutions. Oakbrook offers partnership and investment opportunities and fosters a diverse and collaborative work environment. Joining the Oakbrook team means becoming part of an innovative company dedicated to improving the lending experience.

Structure and function

Oakbrook specializes in personalized and simplified borrowing by combining consumer lending expertise, analytics, and technology. They address industry challenges by meeting evolving customer expectations, overcoming legacy technology constraints, and mitigating the impact of aggregators. Oakbrook's embedded consumer finance platform integrates with aggregators and utilizes extensive data analysis to deliver exceptional customer experiences and scalable economics. The diverse team at Oakbrook shares a common purpose and vision of positively impacting customers' financial well-being while fostering a great work culture. Backed by Blenheim Chalcot, a digital venture builder, Oakbrook is committed to transforming financial services.

16. [Rajasthan royals](#)

Rajasthan Royals, a global sports franchise, aims to "Transform Society through Cricket, and Cricket through Innovation." Their spirit of royalty sets them apart. They focus on winning in style, resilience, nurturing new talent, and adopting an innovative approach. They hold records like the first team to lift an IPL trophy and chase down a record IPL score of 217. Their logo embodies pride and grandeur, celebrating team spirit and the people of Rajasthan. Their anthem "Halla Bol" symbolizes their intensity and fighting spirit, embodying the team's core values of royalty and team spirit. 1

The Royals School of Business provides cricket education across India and the world. The Royal Rajasthan Foundation supports organizations empowering women through grants and mentorship. Join their mailing list for updates, exclusive merchandise discounts, early bird tickets, and more. 2

The Rajasthan Royals, an IPL franchise based in Jaipur, India, has had a mixed performance in different IPL seasons. They won the inaugural IPL in 2008 but struggled in subsequent seasons. The team was briefly expelled in 2010 but later rejoined the league after resolving legal disputes. In 2015, they were banned for two years due to controversies and returned in 2018. Over the years, they have had notable players like Shane Watson, Rahul Dravid, and Jos Buttler. The current squad includes international players like Joe Root and Shimron Hetmyer, with Sanju Samson as the captain. The team has had intense rivalries with Punjab Kings, with memorable encounters and high-scoring matches. Overall, their success rate in IPL is around 49.52%. 3

Rajasthan Royals is an esteemed IPL franchise with a rich history and a focus on excellence in cricket. The team has experienced both triumphs and challenges over the years, making them a significant presence in the cricketing world. Their values of royalty, innovation, and team spirit resonate with fans, and they continue to inspire cricket enthusiasts worldwide.

[Aim](#)

Modulr moves money efficiently to power business productivity

We're building the new digital payment service to make money flow more efficiently through businesses and the economy.

[Modulr for every industry](#)

Powerful payment solutions for each sector, including accounting, travel, and financial services.

[Automate payments in your software](#)

Automate 'if this, then that' rules for the ultimate in efficiency and customer experience.

[Authorised, regulated and secure](#)

Modulr is authorised and regulated as an Electronic Money Institution by the FCA (Modulr FS Ltd, FRN: 900573) and by the De Nederlandsche Bank (DNB). So we can issue accounts with sort codes and Euro IBANs. Our accounts access existing payments services – Bacs, CHAPS, Faster Payments, SEPA, Visa and Mastercard – so businesses can receive and make payments easily.

As a directly connected participant to the Faster Payments and Bacs schemes, we are able to hold and settle funds at the Bank of England, meaning greater reliability and security.

All built on a secure platform with multi-factor authentication, activity observation and regular penetration testing.
